Remarks.

FELLOW CITIZENS:—In accordance with law, as well as custom, the School Board and Treasurer render to you an account of their stewardship.

The matter of securing ideal teachers, for all of our schools at a given price, when the price is much lower than such teachers as we would like can get elsewhere, is no easy task. But in almost every instance we think we have been remarkably successful during the year passed, and the work done has been very gratifying, so far as we know, to all parties concerned.

The shortness of the appropriations did not admit of our making up many of the losses that occurred last year on account of sickness.

A larger appropriation so as to give our schools from thirty to thirty-six weeks in the year, instead of from twenty-six to thirty, would be greatly to their advantage.

We have paid all outstanding debts against the district except one note of $1200 held by the town.

We have built an out-house in Division 1, with brick and cemented vaults, and ventilators, at an expense of nearly $250, (this will need to be painted in the spring.) This was done not only as a convenience, but as a sanitary measure.

The daily tread of 135 scholars for a series of years has worn the floors in the entrance way nearly through, and the floors in the two lower rooms in Division 1 are very thin and rough. At no very distant day these floors will have to be replaced with hard wood ones; and as a sanitary measure considerable painting should be done on the inside of the building.

We have cleared the school grounds and especially the margin on the roadside on Concord street of large boulders trees, bushes, &c., and graded the margin, thereby very much improving the looks of the street as well as the grounds. This was done not at the expense of the district, but by public-spirited citizens, either by subscription or volunteer service.

The High School has had two terms of twelve weeks each thus far, and we have remaining a sum of $230.44 for the next term in the year.

There are at present twenty-one scholars in the High School There will be a class of eight or ten to go in from the Grammar school next fall; and we hope, several from other divisions, thus making three distinct classes. There are many books of reference and chemical and philosophical apparatus, that we hope will be procured sometime in the future.

We might say the same thing in regard to teachers for this school that we have said in regard to others.

The grade of studies, and examinations for admittance, have been carried out as laid down last year.

No prevailing epidemic has visited us this year to materially interfere with our schools.

Some scholars seem to think that it shows no disrespect to their teacher or disregard to the regulations of school to leave school two or three days before it closes without informing anybody of their intentions. But we do not so consider it. And it seems to us that parents of integrity will not allow their children to do so. A scholar that fails to stand by at the examination, when a teacher is trying to show to the School Board and other visitors what has been accomplished during the term will fail in after life when responsible people are required for responsible places. The same characteristics will be manifest as now.

Thanking all who have so heartily co-operated with us, we are your obedient servants,

J. F. TENNEY,
D. W. COOLEY,
A. B. CROMBIE,
School Board of Antrim.

AUDITORS' ACCOUNT

For the Year Ending February 15, 1894.

Alfred A Miller and Geo. A Cochran, Auditors for the year 1893, charge Cummings E. Hills, Collector of Taxes, with the amount of taxes committed to him for collection by J. Elroe Perkins, Charles W. Kelsea and Milton Tenney, Selectmen of Antrim:
